

CONTENTS

Preface	2
Dedication	3
Keynote Presentation: Assessment of Resource Risk —Some Context and Some Challenges	5
<i>Peter Ravenscroft, Rio Tinto Technical Services</i>	5
An Overview of Geostatistical Simulation for Quantifying Risk	13
<i>John Vann, Olivier Bertoli and Scott Jackson, Quantitative Geoscience</i>	13
Quantifying Resource Risk by Non-Conditional Simulation	29
<i>Anthony Wesson, SRK Consulting</i>	29
A risk-based approach to resource classification	40
<i>Ian Glacken, Snowden Mining Industry Consultants</i>	40
Managing Risk And Value In Mineral Exploration	43
<i>Deborah Lord, Michael Etheridge and Phillip Uttley, SRK Consulting</i>	43
Multi-Level Conditional Simulation Of Two-Dimensional Random Processes Using Haar Wavelets.	56
<i>Tuyet Tran, Ute Mueller and Lyn Bloom, Edith Cowan University</i>	56
The Influence Of Drillhole Spacing, Nugget Effect And Selected Estimation Method On The Error In The Grade-Tonnage Curves Of A Gold Deposit.	79
<i>Aloysius (Louis) Voortman, SRK Consulting</i>	79
Conditional Simulation Case Studies	108
<i>Michael Andrew, Newmont Australia</i>	108
The Use of the Chain of Mining Method, Based on Conditional Simulation Models, to Quantify Mining Risk – A Reality Check for Resource Estimates	111
<i>William (Bill) Shaw and Sia Khosrowshahi, Golder Associates</i>	111
Reducing Estimation Errors in Finance: Time Varying Conditional Distribution	119
<i>Tsz Kei Wong, Peter Verhoeven and Janice How, Curtin University of Technology</i>	119
An Application of Conditional Simulation to The Phosphate Hill Deposit	141
<i>Henri Sans, Bruce Sommerville, Louis Voortman and Daniel Guibal, Omega Consulting, WMC Fertilizers and SRK Consulting</i>	141
Author Directory	161
Delegates	164
GAA Contacts	170
